

3Shape TRIOS

Better for them.
Better for you.

3shape 

Better patient care today and tomorrow.

Step into the world of digital dentistry with 3Shape TRIOS® in hand and discover a long list of opportunities. Opportunities that go beyond a faster, easier way to take impressions more comfortably.

You'll have the opportunity to engage and counsel your patients even more. Which in itself creates an opportunity to increase treatment acceptance. That will give you a virtual mandate for the long-lasting, aesthetic, naturally functioning treatments that TRIOS makes possible. Digital dentistry with 3Shape TRIOS also offers opportunities to expand your expertise with new treatment options and more cost-effective ways of taking care of your patients and business.

It all comes with the peace of mind you experience with a proven product that tens of thousands of dentists use successfully every day. And with the support of the company that started the digital dentistry revolution over 20 years ago. The same company that's been perfecting intraoral scanning ever since.

So why not take your first steps into digital dentistry right now?

Welcome to the world of TRIOS digital dentistry.

Dental treatments that reflect your standards.

Precise digital impressions support treatment outcomes your patients will be happy with. Outcomes that live up to your high standards. Because you can rely on every dental impression taken with a TRIOS® intraoral scanner being as accurate as a conventional impression – or even more so.¹

[Learn more](https://3Shape.com/treatments) at 3Shape.com/treatments

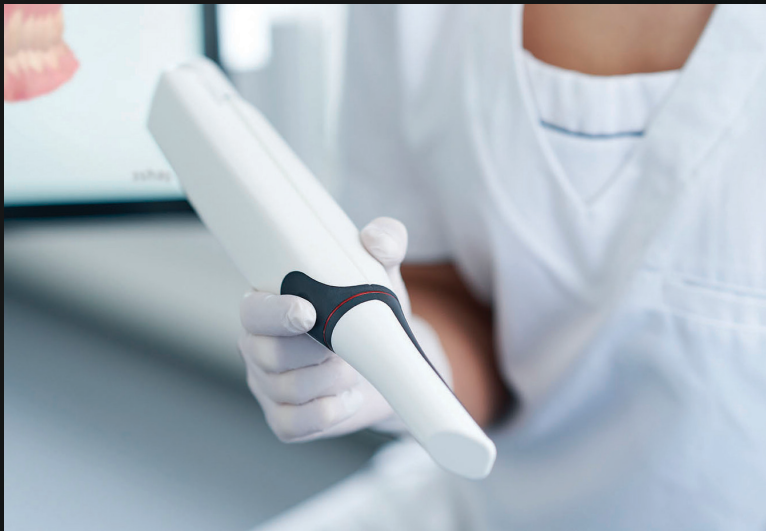

Patient engagement you can sense.

Boost case acceptance by engaging – even more – with your patients. Together, TRIOS 3D color scans and the TRIOS engagement apps create a perfect opportunity to show patients their unique dentition and help them understand their treatment needs. They'll notice the difference. And you'll feel the engagement.

More than 20,000 partners.

3Shape's open ecosystem means you can send your TRIOS intraoral scans to your choice of our long list of partners. You're able to instantly share files and collaborate directly with your preferred design and production partners for the best, most cost-effective options for you and your patients.

TRIOS 3 Basic

Just scan and send.

TRIOS 3 basic gives you a simple, cost-effective way to get started with digital dentistry. Use it to take comfortable digital impressions that are at least as accurate as conventional impressions.¹ Then send the impressions to your choice of labs with a couple of clicks.

TRIOS 3

Gain case acceptance.

This 3Shape scanner comes with all of the TRIOS engagement apps: TRIOS Treatment Simulator, TRIOS Smile Design and TRIOS Patient Monitoring. So, you can preview orthodontic and restorative results. And you can explain your treatment plans more easily.

[Learn more](https://3Shape.com/trios-3) at 3Shape.com/trios-3.

TRIOS 4

Extra support for excellent outcomes.

TRIOS 4 adds advanced diagnostic capabilities to its list of digital advantages. That means you don't need a separate scanning device to benefit from advanced fluorescent technology for caries identification. Because we've built it right in.

TRIOS patient engagement apps.

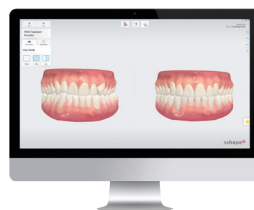

Our engagement apps make it easier than ever to communicate with your patients and increase acceptance of your treatment proposals.

Learn more at 3Shape.com/engagement-apps

TRIOS Patient Monitoring.

Accurately measure changes in dentition over time by scanning every patient at every appointment with TRIOS Patient Monitoring. It's a valuable visual tool that helps you identify treatment needs while also creating a perfect opportunity to engage and strengthen connections.

TRIOS Treatment Simulator.

What better way to help patients accept your orthodontic treatment plans than by showing them their potential results before you get started? TRIOS Treatment Simulator simulates realistic corrections onscreen based on a 3Shape TRIOS intraoral scan. What a revelation!

TRIOS Smile Design.

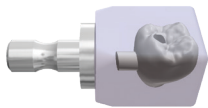

Everyone wants to know how their teeth will look after restorative treatment. Now you can show them. TRIOS Smile Design lets you digitally design their potential new smile before their eyes – and send them home with a picture to share.

Bring it all in-house.

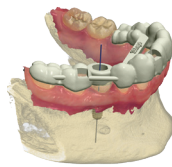

Together with our selection of studio apps, 3Shape TRIOS® gives you the option of offering your patients fast, hassle-free same-day treatment. You'll be able to create your own high-profit-margin treatments like clear aligners, splints, and screw-retained crowns and trays in-house at your practice. Your patients will thank you – and so will your bottom line.
